

## Case Study

# MAGGIES CENTRE, CARDIFF

Client: Maggie's Centres

Value:	£763,000
Procurement:	JCT Intermediate
Sector:	Master Planning Retail
Role:	Quantity Surveyor Cost Management

### Description

RPA have been honoured to work alongside Dow Jones Architects for the completion of the new South East Wales interim Cancer Support Centre for Maggie's. Located at Velindre Hospital in Cardiff, the centre is a vital resource for people affected by Cancer, their families, carers and friends.

RPA have undertaken the roles of Quantity Surveying and Cost Control for this innovative project. The centre will be an interim facility, intended to be used for 10 years (though could be used indefinitely) until its permanent replacement, as part of the overall redevelopment of the hospital planned in 2023. As such cost control has been critical to delivering project requirements with the resources available.

The centre was delivered in just sixteen months from choosing the site. It has been generously funded by the Welsh Government and other private funders.
